RE: new storage building for Camp Oakdale  
Attention: Meredith @ Planning & Zoning Department

I am writing this letter to inform you the importance of needing the new storage building @ Camp Oakdale. We have four (4) employees that work regularly for the Camp Oakdale facilities and we have added additional equipment over the years to better suit the demands of the grounds. The current storage building does not support all of the equipment and vehicles on site and we have to keep equipment outside. These items being outdoors are susceptible to mice and the elements of New England weather. For the ease of use and for regular maintenance of the vehicles and equipment being kept undercover is important. In addition, the potential for vandalism is greater with equipment being left outside, as we have had an episode caught on camera in the past.

John Carlson  
Public Works Director
