RE: Proposed Residential Development
Shantock Village
1758 Route 32, Montville, CT

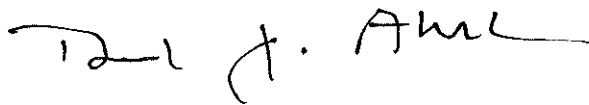

Mr. Farmer:

Based on the July 31, 2024 Loureiro Engineering Associates, Inc. (Loureiro) *Preliminary Town Review*, both sewers and water supply can be made available to serve the above-referenced project.

Service will be provided only after the WPCA review and approval (per rules and regulations/material and construction standards) and all associated engineering is complete with application and connection fees paid.

We will have better information available after design and formal applications are submitted for initial review.

Sincerely,

Derek J. Albertson
Superintendent
