**Subject:** RE: Route 32 - Horizon View - Response to Staff Technical Review Comments

**CAUTION:** This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thanks Meredith – The following is an initial estimated breakdown of the bond:

+/- 15k for the erosion control (wattles & silt fence)  
+/- 25k for the site restoration (loam and seed the site).

This is a best guess at this time in the process and assumes the loam is available from on-site sources.

We will be dropping off the hard copies and thumb drive with the PDFs of the complete plan set this morning.

As always please let us know if you need anything else to complete the reviews.

Thanks  
Roy
