News Release

The Montville Resident State Troopers Office and the Montville Police Department are warning citizens that there have been an increased number of incidents involving persons who misrepresent themselves as utility workers. Numerous complaints have been made that these individuals are claiming to be a representative of a cable, phone or power company. These individuals do not possess the proper credentials and citizens are asked to notify police immediately. As a reminder citizens should never allow these persons into their homes or release any personal information that can be utilized for larceny and identity theft.
