

REOPENING: DID YOU KNOW THIS?

1. The max attendees is 150 for an outdoor graveside funeral.
2. Restaurants can build dividers between tables with Plexiglas or wood that are 30" above the table.
3. Salons, gyms and other places cannot build dividers.
4. Buffets, passed appetizers and other "in the open food" are not allowed.
5. Most everything requires an appointment or ordering ahead online or on the phone.
6. Masks should be worn when 6' distancing cannot be guaranteed.
7. Masks should not be worn during heavy physical exercise or exertion.
8. Masks should not be worn if you are driving a car alone or are outside alone.
9. People at risk (over 65 and/or those with serious medical illnesses) should still stay at home and not go out unless essential.
10. As an employer, you cannot tell your employee that may be in a high-risk category to stay home. It is their choice, not yours.
11. As an employer, you can send home any employee that exhibits symptoms, or anyone refusing to be tested for COVID, or anyone who did not self-test, without repercussions.
12. If you are a non-essential business, you can refuse service to anyone not wearing a mask, even if they have a medical condition.
